The principal activities of the Company comprise unloading, storing, bagging, trading, and distribution of cement and other cementitious products in Mauritius and Madagascar.

Results

Revenue for the quarter ended 31 March 2023 amounted to Rs 522 M versus Rs 477 M in the corresponding prior year.

Outlook

The Company's operating costs have continued to increase as a result of volatility in FX rates, high inflation, and increases in the cost of input materials and fuel. Despite these increases and eroding margins, the Company has been unable to increase the price of its cement products since the Ministry of Commerce and Consumer Protection imposed cement price control measures in February 2023 by way of a price grid. This price grid contains anomalies that further disadvantage Kolos vis-à-vis the industry, and is distorting the cement market in Mauritius.

The Company has engaged in discussions with the Ministry of Commerce and Consumer Protection to find a solution to the cement price control given that the costs are outside the control of the Company. Legal action has also been initiated to seek redress.

The Board and Management remain confident that a solution in the best interest of all stakeholders will be reached.

A final dividend of MUR 1.77 per share was declared (March 2022: MUR 1.97 per share) on 20 April 2023 and paid in May 2023 in respect of the financial year ended 31 December 2022.

The abridged consolidated financial statements for the quarter ended 31 March 2023 are unaudited. The accounting policies and standards used in the preparation of these abridged unaudited consolidated financial statements are consistent with those used in the audited consolidated financial statements for the year ended 31 December 2022, except for relevant amendments to published standards, standards and interpretations issued and which are effective as from 1 January 2023. This interim report complies with IAS 34.
